## TRIKES AND ACCESSORIES PRICE LIST

CLICKABLE PDF

# HELLO FROM ICE TRIKES

2020 brings exciting developments and news at ICE. This is our trikes and accessories price list, showing full prices for all our trikes, example model configurations and accessories. Click the links and config codes to visit the website. This year we have updated trike models, with exciting new features, new accessories and still an easy way to buy a trike, ICE FAST TRACK.

Great news again from 2019 we have to shout about, our VTX Black won the prestigious World Human Powered Vehicle Championship in the Unfaired Multi track class in Nandax, France following on from the 2018 win at, Betteshanger Park, UK. Making it the **fastest trike in the world, again**. Our very own Matthew le Ruez from ICE HQ in Falmouth competed against riders from all over the world to claim the trophy again for ICE and prove the racing credentials of the ICE VTX Black.

You can keep up-to-date on all ICE news and products on our website, social media pages or by signing up to our email newsletter. We always love to hear any comments, feedback and suggestions from you, so do keep in touch.

**Kind regards, ICE Trikes.**

# ICE LAUNCH FAST TRACK STORES

ICE launch worldwide Fast Track Stores in 2020. Want a great ICE Trike without the wait? Now you can. Many of our worldwide dealers have already signed up to become Fast Track Stores. There are three levels of store, each having at least two Fast Track trikes in stock.

Fast Track stores are a great place to go, they have years of experience and full knowledge of the whole range. They will help you find the right Fast Track trike to suit you and you can buy it straight away. We have created a range of 11 trikes that are our most popular trike configurations, from the Adventure, Adventure HD and Sprint X Tour models.

You can easily find your closest Fast Track store on our dealer map by looking for the blue map pins. Popular trikes, built in Britain, on the road prices and in stock ready to buy. An easy way to buy a great trike.

Find your nearest store at [www.icetrikes.co/dealers](http://www.icetrikes.co/dealers)

## ACCESSORIZE YOUR TRIKE

### NEW SEAT PROTECTION COVER & POUCH

The brand new seat and integral neck rest protection cover helps keep the seat dry and protected from UV, rain, snow and dust. The elasticated design fits all Ergo seats and it can occasionally be sat on while riding. The pouch is more waterproof and ideal for storing small items. Fastens with Velcro straps. The cover may fit other trike brands.

### SIDEPODS FOR ERGO-LUXE SEATS

The Sidepods for the Ergo-Luxe seat have all the standard features of the current Sidepods with an extra internal storage pocket and the new innovative mounting system that secures the Sidepods to the Ergo-Luxe seat without the need for additional over the seat straps.

### EASY FIT WRIST RESTS AND SUPPORT STRAP

The wrist rests with an optional support strap offer incredible comfort and support for riders who require that additional wrist support while riding. Great for touring or for riders who have limited wrist use.

# THE ICE TRIKE RANGE

## HOW TO USE CUSTOM CONFIGURATION EXAMPLES:

These are popular configuration examples. Showing a range of options from our low priced trikes to high spec, fully loaded models. You can buy these options as they are or customise them to suit your needs.

1. Either go to [www.icetrikes.co/configure](http://www.icetrikes.co/configure) or click 'buy' from the top menu and select configure. Click the [load configuration](#) button and enter the configuration code. [Click load](#). Your selection is now loaded. Or from the PDF price list click on the [config code](#) above and this will take you straight to the configurator and will pre-load your choice. This will open a new unique configuration number which you can work from.
2. You can now proceed to send the configuration to your local dealer of choice or ICE direct as it is, or you can customise the trike to your requirements by clicking on the sections to choose different options.

# ADVENTURE HD

The ICE Adventure HD, all the features of the Adventure range, but with more generous sizing. Great for leisure, touring, bike trails, rehab and disability. Easy access, higher seat position. ICE

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

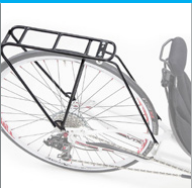

## MIRRORS AND MOUNTS

00043		<b>Mirrycle mountain mirror</b> The mirror is a 3" round, convex glass mirror with a wide field of view. It is adjustable to any angle. This is the best we have found for a clear view behind you. NOTE: a Handle bar Accessory mount (03161) is also needed when fitting a mirror in conjunction with bar end shifters. Additional mirror mounts and mirrors can be ordered separately.	€22
03161		<b>Handlebar accessory mount</b> The ICE custom handlebar accessory mount clamps onto the handlebar and gives a mirror fixing position below the brake lever. Needed if fitting a mirror in combination with bar end shifters (one is included with the mirror in the On The Road pack). Two bolt clamp for easy fitting to any 22.2mm tube.	€37

## FLAGS AND MOUNTS

02771		<b>ICE Flag and pole</b> High visibility flag with 3 piece pole for convenient storage. With ICE logo, reflective strip and eyelet for attaching streamers.	€30
01919		<b>Clamp on mesh seat flag mount</b> Additional flag mount to allow an alternative flag position from the built in seat top holes. Especially useful on the Sprint to give a more vertical and more visible flag position. Clamps to any 1" diameter tube.	€38
00825		<b>Flag mount for hard shell seat</b> Additional flag mount for Air Pro hardshell seat. Each Air Pro comes with one flag mount, this will allow a second, additional flag to be mounted on the seat.	€16

## RACKS AND CARRIERS

00087		<b>26 inch Rigid Rack. NOT for rear suspension trikes.</b> The ICE Rigid rear rack complete with custom fixing kit is the ideal complement to your ICE trike giving a robust luggage carrying system. Fits only 26" rigid rear end trikes. Does not fit suspension trikes. Maximum rack load - 25kg (55lbs)	€52
00090		<b>20 inch Rigid Rack. NOT for rear suspension trikes.</b> The ICE Rigid rear rack complete with custom fixing kit is the ideal complement to your ICE trike giving a robust luggage carrying system. Fits only 20" rigid rear end trikes. Does not fit suspension trikes. Maximum rack load - 25kg (55lbs)	€49
00335		<b>700c Rigid Rack for VTX</b> The VTX rack fits directly onto the rear of the ICE VTX and is compatible with most panniers and top bags. Made from 7001 Hard-anodised heat treated aluminium. Fits only the VTX. Does not fit suspension trikes.	€54

# ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

01700		<b>Rack for 20 and 26 inch suspension trikes</b> Pannier Rack for 20" and 26" suspension ICE trikes, allows the use of standard touring side panniers. Can be combined with the top bag adapter to allow the use of a top bag.	€202
01297		<b>Suspension Pannier Rack with 20" top bag adapter</b> Rack for ICE suspension trikes with Top bag adapter for 20" rear wheel allowing the use of standard panniers and top bags.	€248
02222		<b>Suspension Rack with 26" top bag adapter</b> Rack for ICE suspension trikes with Top bag adaptor for 26" rear wheel allowing the use of standard panniers and top bags.	€289
01703		<b>Pannier Rack Top Bag Adapter for 20 suspension</b> Top section for 20" suspension rack to allow fitting of top bags. Requires 01700 pannier rack to be fitted.	€58
02216		<b>Pannier Rack Top Bag Adapter for 26 suspension</b> Top section for 26" suspension rack to allow fitting of top bags. Requires 01700 pannier rack to be fitted.	€88
01403		<b>Side Bag Mount</b> The ICE side bag mount allows a handlebar bag from an upright touring bike to be fitted next to the seat for easy access to small items such as food, camera, phone and maps without the need to get out of the seat.	€45

## MUDGUARDS (FENDERS)

00050		<b>20 inch rear mudguard/fender</b> The ICE rear mudguard with custom mount kit has been tested over many miles and is ideal for protecting you on those wetter days. Fits all 20" rear wheel ICE trikes	€40
00051		<b>26 inch rear mudguard/fender</b> The ICE rear mudguard with custom mount kit has been tested over many miles and is ideal for protecting you on those wetter days. Fits all ICE trikes with 26" rear wheels	€45

## ACCESSORIES

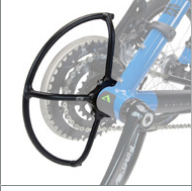

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

01429		<b>700c rear mudguard/fender</b> The ICE rear mudguard with custom mount kit has been tested over many miles and is ideal for protecting you on those wetter days. Fits ICE trikes with 700c rear wheels.	€45
02020		<b>Full Fat Rear Mudguard/Fender</b> Custom built for the ICE Full Fat, this mudguard is tough, wide and built to handle everything the giant Full Fat tyres can throw at it.	€70
00049		<b>20 inch front mudguard set for non-suspended wheels</b> The ICE front mudguard is supported by an anodised 6061 heat treated aluminium frame with a plastic profile body. The guard is adjustable for angle and vertical height. This version fits the rigid front end. Part number 02137 fits front suspension trikes.	€171
02137		<b>Front Mudguard/fender set for suspension front end</b> Front mudguards for front suspension trikes featuring specific suspension mounting to allow the mudguard to move with the wheel and maintain effectiveness across all travel positions.	€186

## NECK REST

01588		<b>Ergo mesh seat Neck Rest</b> The ICE neck-rest is fully adjustable for both height and angle, and can be fitted to mesh seats to provide neck support for increased comfort on long rides. Fitted with a removable padded cover on an adjustable tension strap for fully customisable comfort.	€124
01589		<b>Hardshell Seat Neck Rest</b> The ICE neck rest is fully adjustable for both height and angle, and can be fitted to Air-Pro seats to provide neck support for increased comfort on long rides. Fitted with a removable padded cover on an adjustable tension strap for fully customisable comfort.	€130

## CHAINRING GUARD

00725		<b>Chain ring guard</b> Designed by ICE, this optional chain ring guard is a light-weight and durable unit made from heat treated aluminium alloy. The guard is an added safety feature but is also very good in preventing you from accidentally brushing against the oily chain rings and avoiding the tell-tale prints on your legs or trousers. The guard may be fitted without removing the chain set by means of its convenient 2- bolt fixing. A chain ring of up to 58 tooth size can be fitted.	€73
03115		<b>Bash guard for STEPS E8000</b> Protective plate mounted under the motor to avoid any impact directly onto the motor body. Rugged off road look.	€40

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

RIDER POSITIONING			
02885		<b>Wrist Rests</b> The New ICE Wrist rests are designed to comfortably and stylishly support the rider's arms while riding your trike. - Ideal for long journeys and riders with limited grip or strength. - Incredible comfort & wrist support while riding. - Lightweight construction and adjustable, weighing only 70g each. - Easy to fit, simply snap onto your handlebar and tighten. - Fits all ICE models, except the VTX and is compatible with other trike manufacturers, with a vertical 22.2 mm ø handlebar size. - Washable wrist pad. - Optional padded Velcro support strap can be purchased separately. - Sold as a pair, for both handlebars.	€69
02898		<b>Wrist Rest Strap</b> Velcro support strap for the ICE wrist rest. Easy fit and remove, padded and comfortable support strap, gives extra wrist restraint and controls lateral movement. Ideal for riders for with limited arm or wrist control. Sold individually, fits left or right wrist rests and is fully washable.	€31
02178		<b>Seat riser for Adventure and Adventure HD</b> The seat riser makes the seat 4 inches (10cm) higher. Perfect for those that find the normal seat heights just too low to comfortably mount and dismount. Generally increased rider height will reduce stability of the trike and so the seat riser is best suited to more steady paced riding.	€248
00501		<b>Helping Handles for Adventure, Adventure HD and Full Fat.</b> Helping Handles offer the extra assistance you may need to get on and off your trike by giving secure leverage for a smooth recline and easier rise. They clamp firmly onto to the cross-axle of your ICE trike without interfering with the steering or ride; once fitted they do not need to be removed. Made from lightweight anodised aluminium with laser etched detailing, Helping Handles look stylish as well as being practical and convenient. For Adventure, Adventure HD and Full Fat only.	€145
01630		<b>Helping Handles for Sprint</b> The ICE Sprint Helping Handles offer the extra assistance you may need to get on and off your trike by giving secure leverage for a smooth recline and easier rise. They clamp firmly onto to the cross-axle of your ICE trike without interfering with the steering or ride; once fitted they do not need to be removed. Made from lightweight anodised aluminium with laser etched detailing, Helping Handles look stylish as well as being practical and convenient. For Sprint and Sprint X only.	€145
00870		<b>FF seat mounting bracket for shorter riders</b> The FF bracket moves the front seat mount forward for very short legged riders, we recommend short arm cranks for riders taking the FF brackets. The FF bracket should only be fitted to Sprints and Sprint X trikes. It should not be used on the Adventure and Adventure HD.	€78
00872		<b>FB seat mounting bracket for taller riders - not fitted to trike</b> The FB bracket - moves the front seat mount backwards for very long legged riders. Note that using this bracket with the hard shell seat will reduce the maximum recline available. Packaged as an accessory. Fitting requires additional parts. For factory fitted choose item 03017. The FB bracket can be used on all Sprint and Adventure and Full Fat models but does not fit the VTX.	€75
00724		<b>Easy Adjust Kit for Leg Length</b> The Easy Adjust Kit allows the trike to be quickly resized for different riders without the use of tools, including adjusting the chain length for the rider. This is very useful for trikes which are shared with more than one rider but not needed for any trike which is used exclusively by one rider. This version fits all ICE trikes except the VTX, for the VTX you will need item number 00210	€145
00210		<b>Easy Adjust Kit for Leg Length - VTX</b> The Easy Adjust Kit allows the trike to be quickly resized for different riders without the use of tools, including adjusting the chain length for the rider. This is very useful for trikes which are shared with more than one rider but not needed for any trike which is used exclusively by one rider. This version fits only the VTX, for all other ICE trikes you will need part number 00725	€155

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

BAGS			
03055		<b>Pair of Sidepods for use with Ergo-Flow or Ergo-Luxe seat covers.</b> These custom ICE side pods have been specially made for our seat covers that have location loops on the side edging. They are ideal for day riding or commuting. The bags each fit directly onto the side of the seat cover loops and can be used singly and can be quickly removed from the trike. The zip opening is arranged so that the front of each bag can be opened whilst riding along - perfect for getting at the snack bars or a camera. Available in black only and supplied as a pair with reflective tapes at the rear. This version fits all Ergo-Luxe covers and any Ergo-Flow if the cover has side tabs.	€126
01635		<b>Banana Racer bags for Hardshell Seat inc Banana Racer Spacer</b> These Banana Racer panniers fit directly to the Air Pro hard shell seats. They do not need a rack. With foam reinforcement and mesh pockets, the set comes with a custom deflector bracket which keeps the bags away from the chain and frame. They have a total volume of 25ltr and weigh 520 grams per pair.	€217
01633		<b>Banana Racer Spacer for Hardshell Seat</b> An essential simple frame to hold the Banana Racer bags away from the frame and chain line. Comes as standard with the Banana Racer bags for hardshell seat.	€30
00005		<b>Altura Arran Bar Bag 5Ltr - fits Side Bag Mount</b> The Altura Arran handlebar bag is recommended by ICE and gives an ideal storage solution for small items. Can be quickly removed and comes with a shoulder strap for easy carrying off the trike. This bag cannot be mounted without the Side Bag Mount item number 01403	€56
01745		<b>Accessory pouch for Ergo-Flow and Ergo-Luxe mesh seats.</b> A small pouch which attaches to the back of the seat. Perfect for small essential items such as tools, pump, spare inner tubes etc. Easy to access and light weight to keep the things you need handy on every ride. Fits one or two pouches to all ICE Ergo Flow and Ergo Luxe seats from 2011 onwards. This pouch was designed to fit the protection cover for the mesh seat but proved so useful we decided to sell it as a stand alone storage solution.	€21
RAIN SEAT COVER			
01718		<b>Rain Cover: All models: w/Pouch.</b> The brand new seat and integral neck rest protection cover helps keep the seat dry and protected from UV, rain, snow and dust. The elasticated design fits all Ergo seats and it can occasionally be sat on while riding. The pouch is more waterproof and ideal for storing small items. Fastens with Velcro straps. May fit other trike brands.	€27
TRAILERS			
00116		<b>Radical Cyclone IV Trekking Trailer for 20 inch rear wheeled trike</b> The Cyclone IV trailer is the fourth generation of the multiple award-winning Cyclone trike trailer. The Cyclone is used all over the world for cycling holidays, long trike rides and even expeditions. Due to its robustness, minimal rolling resistance and quick conversion to a duffel bag, it's the perfect trailer for each trike ride with luggage.	€568
00336		<b>Radical Cyclone IV Trekking Trailer for 26 inch rear wheeled trike</b> The Cyclone IV trailer is the fourth generation of the multiple award-winning Cyclone trike trailer. The Cyclone is used all over the world for cycling holidays, long trike rides and even expeditions. Due to its robustness, minimal rolling resistance and quick conversion to a duffel bag, it's the perfect trailer for each trike ride with luggage.	€568

# ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

## LIGHT MOUNTS

00038		<b>Front light mount</b> The front light mount provides a firm light mounting point, ideal for taking one or more lights for those winter rides. Bolts to the bottle bosses on the boom derailleur post. The horizontal tube is 1" in diameter meaning that most handlebar mounting bicycle front lights can be used.	€32
00851		<b>Neck rest light mount</b> A custom rear light mount designed to clamp on to the ICE neck rest allowing the fitting of most conventional bicycle rear lights which are designed to fit the seat post of an upright bicycle.	€18
02457		<b>Seat rail light mount</b> The Seat Rail Light Mount clamps to the back of the seat and offers a short upright section of tube which allows the mounting of any clamp on accessory which is designed for the seat post of an upright bike such as lights, reflectors, small saddlebags, even some clamp on mudguards.	€45

## LIGHTING SYSTEMS

02627		<b>Lighting set for STEPS E Trike with 26in Rack top: Busch &amp; Muller</b> Lighting set for use with Shimano STEPS electric assist system. This installed set contains the front and rear lights, cables and the pannier rack top section with the rear cable pre-fitted. B&M IQ-X E 150 LUX LED front light, B&M rear light mounted to rear of suspension pannier rack top, includes 26" rack top. XXXXXX Do not order 26" rack top separately XXXXXX	€398
02628		<b>Lighting set for STEPS E Trike without rack for rear light on seat frame: Busch &amp; Muller</b> Lighting set for use with Shimano STEPS electric assist system. This includes the front and rear light and all cables. It does not contain the rack top section, the rear light mounts on the seat. B&M IQ-X E 150 LUX LED front light, B&M rear light mounted to seat frame, all wiring installed.	€289
02718		<b>Lighting set for STEPS E Trike with 20in Rack Top: Busch &amp; Muller</b> Lighting set for use with Shimano STEPS electric assist system. This installed set contains the front and rear lights, cables and the pannier rack top section with the rear cable pre-fitted. B&M IQ-X E 150 LUX LED front light, B&M rear light mounted to rear of suspension pannier rack top, includes 20" rack top. XXXXXX Do not order 20" rack top separately XXXXXX	€346

## COMPUTERS AND MOUNTS

00027		<b>Computer Display Mount</b> Our central mount allows easy fitting of the computer head unit to the trike. The mount is removable and is fitted to the bottle boss mounts on the top of the main frame. (Not suitable for large head units)	€19
03161		<b>Handlebar accessory mount</b> The ICE custom handlebar accessory mount clamps onto the handlebar and gives a mirror fixing position below the brake lever. Needed if fitting a mirror in combination with bar end shifters (one is included with the mirror in the On The Road pack). Two bolt clamp for easy fitting to any 22.2mm tube.	€37

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

01440		<b>Computer Sensor Mount</b> The king post sensor mount attaches to the end of the kingpost arm and allows the sensor to be easily positioned to pick up the magnet signal from the front wheel. The sensor mount replaces a spacer within the steering assembly so it maintains all geometry and moves with the steering to keep a constant distance from the wheel and a consistent reading.	€16
<b>BATTERY MOUNTS</b>			
02588		<b>Battery mount for suspension trikes without rack</b> Allows easy and secure mounting of electric assist system batteries. This kit is for trikes with rear suspension and no rack. This battery mount fastens to the trike through the suspension pivot. For trikes with a rack you need part number 01819	€83
01819		<b>Pannier Rack for suspension trikes with added battery mounting. No rack top bag adapter</b> ICE suspension rack (01700) with added battery mounting bracket. Pannier Rack for 20" and 26" suspension ICE trikes, allows the use of standard touring side panniers. Can be combined with the top bag adapter to allow the use of a top bag. The battery mount angle plate allows easy and secure mounting of electric assist system batteries.	€252
02635		<b>Battery mount for rigid (non-suspension) trike.</b> Battery mounting made by TerraCycle for rigid ICE back ends which clamps to the back end tubes. This mounting allows easy and secure mounting of electric assist batteries on ICE trikes without suspension.	€131
<b>BOTTLES AND CAGES</b>			
02660		<b>Water Bottle: ICE branded 750ml with easy twist and membrane lock</b> This high quality Tacx 750ml water bottle is a finishing touch to any ICE Trike and the best way to fill any bottle cage. The bottle has an innovative, easy-to-clean membrane cap, entirely manufactured in the Netherlands. Thanks to the hygienic lock system, you can drink from it easily and it is dishwasher-safe.	€16
03158		<b>Bottle cage n+1 black and white</b> Super Light weight, strong and secure bottle cage.	€19
00016		<b>Bottle Cage Riser</b> The bottle cage riser has become a must have for many trikers. It takes the front bottle cage mount position and flips and angles it so that it faces towards you for easy access while riding without interrupting your ride so you can stay hydrated easily. Works with most standard bottle cages but some longer cages will not be compatible.	€18
01372		<b>Mounting kit for bottle cage on hard shell seats</b> Consisting of just a pair of bolts, nuts and washers this simple kit allows you to add a bottle cage to the Air Pro hardshell seat onto one of the two mounting positions on the back of the wings. Bottle cage not included, pair with the bottle cage and our ICE water bottle for a complete bottle solution.	€8

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

## QUICK RELEASES

02228		<b>Pair of QR levers for front mudguards, black (not for suspension mudguards 02137)</b> This pair of quick releases allows you to remove the front mudguards/fenders without tools for dry rides or extreme folding situations where the size of the folded package needs to be reduced as much as possible. This kit is only compatible with the rigid front mudguards 00049	€7
02227		<b>Pair of QR levers for front boom</b> These quick releases allow the front boom to be quickly collapsed for extreme folding and for the leg length of the trike to be adjust very slightly but as they do not adjust the chain length (for that you need the Easy Adjust kit 00724) they should not be used to adjust the trike for different riders.	€21
02229		<b>QR front wheel axles pair for disc hubs, black</b> Quick release front axles which allow tool free removal of the front wheels on ICE trikes with disc brakes.	€37
02230		<b>QR front wheel axles pair for drum hubs, black</b> Quick release front axles which allow tool free removal of the front wheels on ICE trikes with drum brakes.	€37

## ICE APPAREL

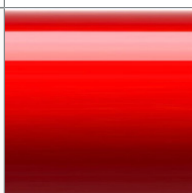

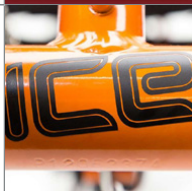

03052		<b>ICE Trikes Graphite Strap-Back Cap</b> With a bold ICE Trikes logo on the front with pull strap adjustment this cap is ideal for showing off your ICE pride when off of the trike.	€16
-------	---	---	-----

## PEDALS (NOT INCLUDED AS STANDARD)

00070		<b>Shimano PDM324 SPD / flat combination pedals</b> The Shimano PDP M324 SPD pedal is ideal for recreational riders who commute and tour. Combines SPD mechanism on one side and flat pedal body on the other, you can ride with cleats or normal shoes. Serviceable cup and cone bearings add to long life of the pedals. Adjustable cleat tension means you can start off with loose tension for extra easy engagement and release, and turn up the tension as you progress. Weight is 520g.	€58
02811		<b>Shimano XT SPD/flat combination pedals.</b> With both SPD clip in and flat pedal options available just by flipping the pedal these pedals are perfect for a quick ride to the shops or an epic tour and everything in between. Ride in any flat sole shoe or in dedicated SPD shoes. Weighing in at only 392g for the pair these high end pedals are light, tough, stylish and the perfect accent to any touring trike.	€105

SPARES AND TOOLS			
00115		<b>Topeak Alien 2 multi-tool</b> The award winning, do-it-all tool. 31 function tool folds into a lightweight two piece body - the perfect cycling tool. Includes self-tightening tool and a nylon bag.	€47
00071		<b>Topeak Race Rocket Mini Pump with Bottle Cage Mount</b> Designed to meet the demands of a professional racing and training schedule this elegant and sleek mini pump features a full aluminium body, head and pump handle. An extendable hose helps take stress off the valve stem and the dependable single action stroke fills tires fast. The Race Rocket's compact size easily fits in a jersey pocket and its low weight is welcome on long training rides and endurance races. Comes with clip system and can be mounted under bottle cage for always there dependability.	€34
01112		<b>ICE 9t lock ring spanner for custom wide range cassettes</b> Our custom 9-32 cassette system uses a different hub and a different cassette mounting from most standard 11 tooth cassettes. This tool allows the cassette to be tightened and loosened.	€11
00242		<b>Touch up paint for ICE colour Fire Red.</b> 3 part system, used to cover small paint scratches or stone chips.	€14
02011		<b>Touch up paint for ICE Full Fat: Orange</b> 3 part system, used to cover small paint scratches or stone chips.	€14
02527		<b>Touch up paint for ICE colour Blue</b> from September 2016 - RAL 5015. We have offered trikes in different shades of blue; please contact us if you have any doubt that this is the correct colour.	€14
02528		<b>Touch up paint for ICE colour Grey</b> 3 part system, used to cover small paint scratches or stone chips.	€14
00241		<b>Rear Derailleur Hanger for 2010 and later</b> Rear derailleur hanger for all Sprint, Sprint X, Adventure, Adventure HD, Vortex, VTX and Full Fat trikes. For hangers for trikes from before 2010 please contact us.	€17
02440		<b>Black 95D hard Spare Elastomer</b> Our hardest rear suspension elastomer. See our elastomer selection chart to find the right combination for your weight. (Tech-Suspension on the website, scroll to the bottom of the page)	€19

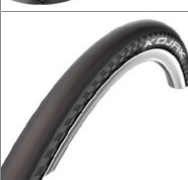

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

02441		<b>Grey 90D Med Spare Elastomer</b> Medium stiffness rear suspension elastomer. See our elastomer selection chart to find the right combination for your weight. (Tech-Suspension on the website, scroll to the bottom of the page)	€19
02442		<b>White 80D Soft Spare Elastomer</b> Our softest rear suspension elastomer. See our elastomer selection chart to find the right combination for your weight. (Tech-Suspension on the website, scroll to the bottom of the page)	€19
00017		<b>Finish Line Wet Oil Lube</b> 120ml (4oz), the perfect chain lube for wet conditions, easy to apply and doesn't wash off too easily. A well maintained, clean and oiled chain will last much longer and be more efficient too.	€12
00004		<b>Schwalbe Tryker 20 x 1.75 (40-406)</b> The Schwalbe Tryker is the first tyre designed specifically for recumbent trikes and it really works. It has a square profile to maximise grip and soft sidewalls for great rolling resistance. The Trykers are a great all round tyre with a good balance between speed, grip, wearing life and puncture resistance.	€42
00123		<b>Schwalbe Durano 20 x 1.10 (28-406) wire bead</b> The Schwalbe Durano is a fast tyre which still maintains some toughness making it perfect for training and long distance fast riding. If you have smooth roads and don't mind sacrificing some comfort these tyres could be a great option. For more comfort while still being quite fast you could look at the Kojak, for more speed the Schwalbe One would be the way to go.	€30
00130		<b>Schwalbe Marathon Plus 20 x 1.75 (47-406) SmartGuard</b> The Schwalbe Marathon plus offers amazing puncture protection. These tough, thick tyres will give you the best chance of never changing a puncture. For those who value reliability over anything these tyres are the way to go. For more comfort and speed the Schwalbe Big Apple could be a good choice but at the sacrifice of some puncture resistance.	€42
00132		<b>Schwalbe Big Apple 20 x 2 (50-406)</b> Schwalbe Big Apple balloon tyres offer maximum comfort without sacrificing too much speed as they have a smooth tread and large volume. For more puncture protection look at the Marathon Plus, for more speed try the Tryker or Kojak.	€28
00136		<b>Schwalbe Kojak 20 x 1.35 (35-406) wire bead</b> The Schwalbe Kojak is a great fast, comfortable road tyre. Its only downfall is in puncture resistance and overall longevity. For a tougher tyre look at the Tryker, for more speed try the Durano or the One.	€35
03192		<b>Schwalbe Road Cruiser 47-406 (20" x 1 5/8")</b> - Urban and individual, an excellent all round tyre with a medium tread and a hard wearing compound. 47mm and great value for money. The outstanding feature of this tyre is in the tread and its Green Compound. A rubber made of renewable and recycled raw materials in such a quality, that it is used for the first time in a conventional bicycle tire.	€17

## ACCESSORIES

Accessories for all models unless stated in the item description. Some accessories are model specific and have their own product code as detailed in the item information. Retail prices in Euros, incl VAT @20%.

02480		<b>Schwalbe ONE V-Guard Folding 406x28c</b> The fastest tyre we offer, the Schwalbe One is perfect for the racer and segment hunter. They are the shortest life and least puncture resistant tyres we offer but they have excellent ride characteristics.	€73
00138		<b>Schwalbe Kojak 26 26 x 1.35 (35-559) wire bead</b> The Schwalbe Kojak is a great fast, comfortable road tyre. Its only downfall is in puncture resistance and overall longevity. For a tougher tyre look at the Spicer or Citizen, for more speed try the Durano or the One.	€30
00141		<b>Schwalbe Durano 26 x 1.1 (28-559) folding</b> The Schwalbe Durano is a fast tyre which still maintains some toughness making it perfect for training and long distance fast riding. If you have smooth roads and don't mind sacrificing some comfort these tyres could be a great option. For more comfort while still being quite fast you could look at the Kojak, for more speed the Schwalbe One would be the way to go.	€41
00145		<b>Schwalbe Marathon Plus 26 x 1.75 (47-559)</b> The Schwalbe Marathon plus offers amazing puncture protection. These tough, thick tyres will give you the best chance of never changing a puncture. For those who value reliability over anything these tyres are the way to go. For more comfort and speed the Schwalbe Big Apple could be a good choice but at the sacrifice of some puncture resistance.	€42
00819		<b>Schwalbe Jumbo Jim Fat tyre 26 x 4.8 inch wide (120-559)</b> The Jumbo Jim is the tyre of choice for the ICE Full Fat. Light weight for their size and offering great grip. The 120mm version can be used on Full Fats with Rohloff whereas derailleur equipped Full Fats must use the 100mm version.	€100
01638		<b>Schwalbe Spicer 40-559 wire bead</b> The Spicer is a great all round tyre which we pair with the Tryker tyres for 26" rear wheel trikes. Offering a great balance of puncture resistance, speed, grip and wearing life it is perfect for casual riders, commuters and tours.	€23
03193		<b>Schwalbe Road Cruiser tyre 47-559 (26" x 1 7/8")</b> - Urban and individual, an excellent all round tyre with a medium tread and a hard wearing compound. 47mm and great value for money. The outstanding feature of this tyre is in the tread and its Green Compound. A rubber made of renewable and recycled raw materials in such a quality, that it is used for the first time in a conventional bicycle tire.	€23
02370		<b>Schwalbe Jumbo Jim Fat tyre 26 x 4.0 inch wide (100-559)</b> The Jumbo Jim is the tyre of choice for the ICE Full Fat. Light weight for their size and offering great grip. The 120mm version can be used on Full Fats with Rohloff whereas derailleur equipped Full Fats must use the 100mm version.	€95
00149		<b>Schwalbe Kojak 700 x 35 (35-622) folding</b> The Schwalbe Kojak is a great fast, comfortable road tyre. Its only downfall is in puncture resistance and overall longevity. The Kojak gives the best comfort level we offer in 700c. For more speed look at the Durano or One.	€41
